Got it thx diane. Bob will touch base with heather (and maybe you? Whatever work best for you guys) Monday am around 9 just to hear if there's anything significant from over the weekend. Also, BTW if you start to hear facts such as , how far upstream from the intake Freedom chemical was, or the capacity of the tank, things like that, I'm sure folks here would be interested tho only if the information comes your way, bob seems to think we have enough from heather's very thorough summary. Have a good weekend. Nancy

Nancy - sorry for the delay - had to make a mad dash. Here's a helpful summary from Stef. Call me Ex. 6 - Personal Privacy if you have questions. Thx. Diane

Diane – you probably have the better overall perspective. I can send the following information to Nancy separately or you can combine with the information you have. Just let me know how you'd like to proceed.

Ex. 5 - Attorney-Client

On the NPDES side, Michele is out. Chad is acting. The NPDES enforcement group is aware and has commenced its investigation, but does not anticipate taking action today.

Hi, region 3 colleagues – if one of you could get back to me or bob brook this afternoon, or have someone else do so, regarding EPA efforts and the status of the West Va. Chemical spill, we'd appreciate it. We need to respond to our managers' requests for information so people can be briefed. Thanks! Nancy
